FOR EXCEPTIONAL EXPERIENCES

For Use Only by Adults 21 Years of Age and Older. Keep Out of Reach of Children.

LAS VEGAS CRAFT CANNABIS

PREMIUM FLOWER

From seed to sale, our cultivation experts have an intimate understanding of the cannabis plant. Award winning cultivars, top genetics and a state-of-the-art growing facility, along with operational expertise, creates the perfect growing environment for our flower and pre-rolls.

We take our time in cultivating, curing and trimming. Experience the difference.

EXPERT IN CULTIVATION

AMA FLOWER & PRE-ROLLS

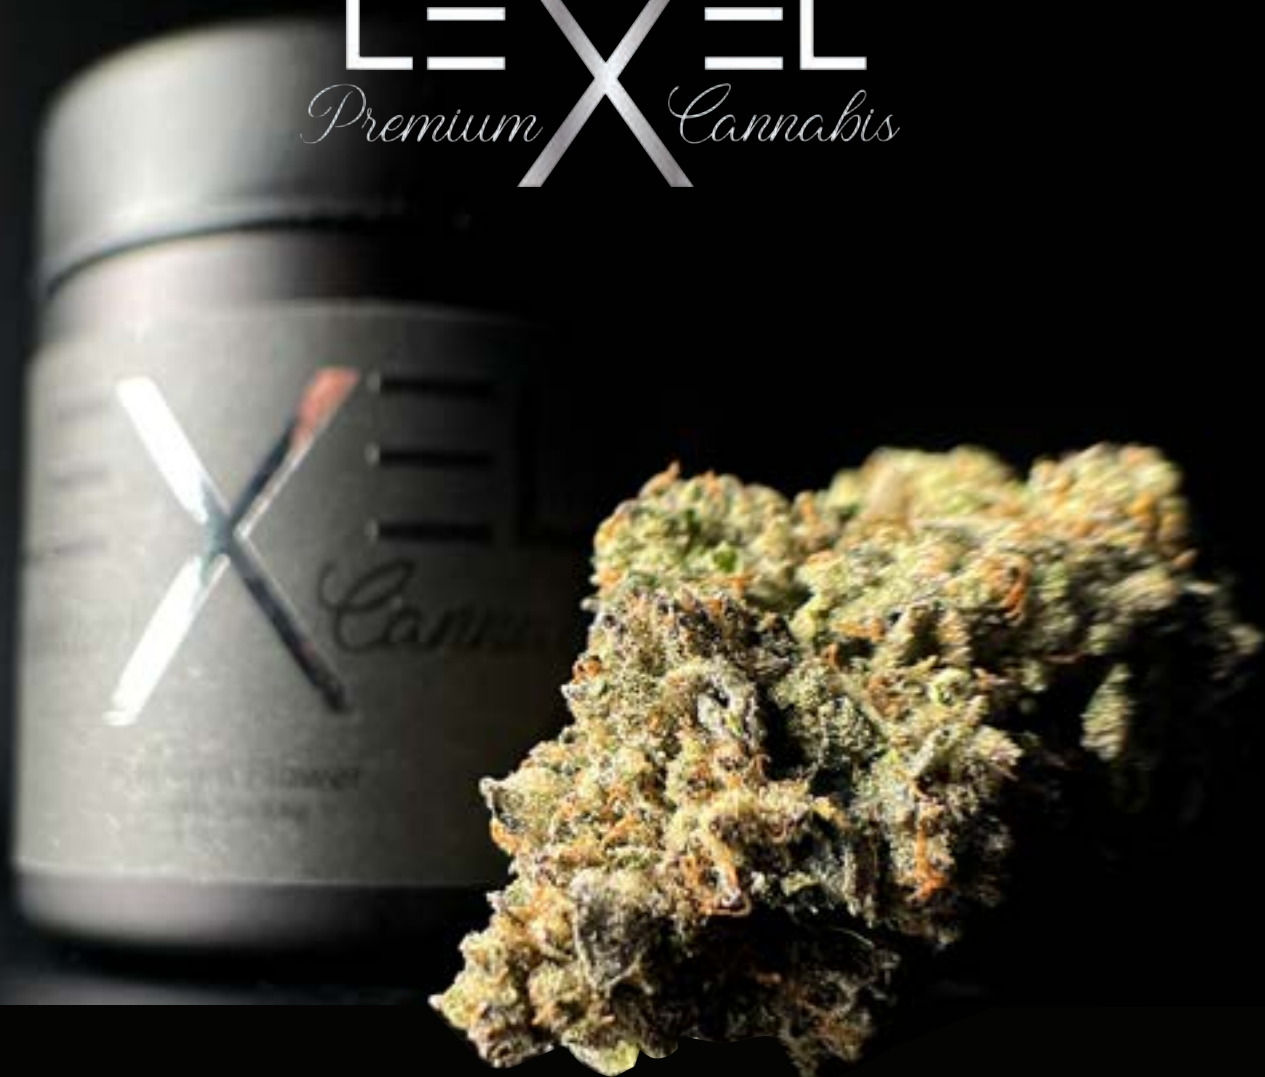

Emphasizing health and wellness, AMA aims to offer approachable, everyday cannabis products that deliver clean, safe, potent and desired experiences.

EXPERTLY-CRAFTED CANNABIS

ULTRA CRAFT BRAND

AN EXCLUSIVE COLLECTION OF EXOTIC STRAINS,
SELECTED TO DELIVER EXCEPTIONAL EXPERIENCES

LEVEL
Premium Cannabis

A NEW LEVEL OF REFINEMENT IN CRAFT CULTIVATION

Exotic strains, selected specifically for their distinctive terpene profiles, high THC levels, and flavonoids.

Level X flower is expertly cured, small batch grown and features buds that are meticulously selected and hand-trimmed.

Our Hero Product: The Stinger is an infused pre-roll that takes your cannabis experience to the next level.

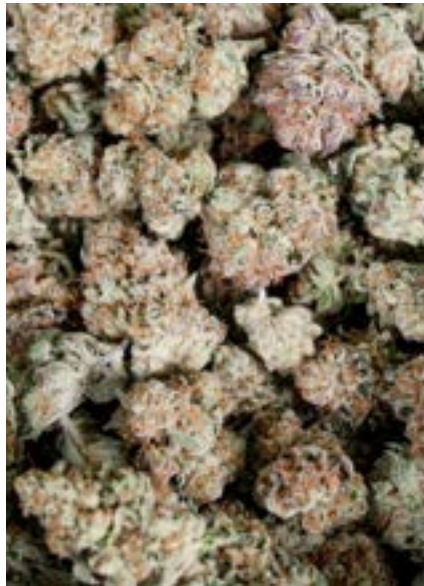

The Stinger

1G Infused Pre-Rolls

The Stinger is an expertly rolled joint of premium flower, designed for perfectly even density and a balanced smoke. The addition of a concentrate, such as oil, kief or a mix of different strains, offer a specific cannabinoid ratio.

INFUSED WHOLE FLOWER PRE-ROLLS

ELEVATED EXPERIENCE

CRAFT CANNABIS IS OUR SPECIALTY.

We believe in taking the time and care to ensure that our cannabis plants are healthy and produce the top tier flower that our consumers want. Craft cannabis is the result of years of growing expertise, deep knowledge of the plant, practical hands-on experience and the dedication, passion and patience that makes a winning brand.

EXCELLENCE IN GENETICS

BLACK MAMBA

Mint Chocolate Chip crossed with the Cube, Dark purple buds, THC (20-25%) Indica dominate hybrid.

COOKIES & CREAM

A cross between Starfighter and GSC, smells of sweet baked goods, Hybrid.

COOKIES & CHEM

Three-way cross of GSC, Starfighter and Stardawg, smells of baked goods with a hint of fruit, Very High THC (30%), Indica.

DOSIDO

Smelling of sweet fruit and lavender, buds are a mix of light green and light purples, THC in the 20% range, Hybrid.

PREMIUM CANNABIS

GG#4

Multi-cup winning strain, visibly sticky and chunky buds, will keep you “glued” to your chair after smoking, Very high THC (26%-30%), Hybrid.

COOKIES

Three-way cross of OG Kush, Durban Poison and Cherry Kush, has a nutty fruity / baked goods smell, buds will be small and dense with some purple coloring to them, THC strain (20-25%).

24k

A cross of Kosher (Indica) and Tangie (Sativa), very sweet citrusy smell, a high THC strain (22%-27%), Hybrid.

KOSHER

A multi-cup winning strain, rumored to have been blessed by a rabbi, has an OG smell with a hint of an earth/fruit smell, always a high THC testing strain (22%-27%), Indica.

HAND-CRAFTED CONCENTRATES

EXCEPTIONAL, POTENT, CONSISTENT

CONCENTRATES AND INFUSED PRODUCTS THAT DELIVER IN
PURITY AND POTENCY

ULTRA-REFINED EXTRACTS

ARTISANAL APPROACH

MAXIMUM TERPENE RETENTION

HYDROCARBON EXTRACTION

We strive to produce products with elevated terpene levels and flavor profiles.
We prioritize the Ensemble Effect.

EXCELLENCE IN GENETICS

BOUTIQUE CONCENTRATES

BADDERS 3.5G (20-35% THC)

Badders are whipped to a cookie dough or cake like batter consistency. Our less stable strains (which are higher in terpenes) leave a half-melted butter-like consistency known as “Budder.” These types of extracts include Live & Cured.

CRUMBLE 3.5G (20-35% THC)

Precise temperature and procedures create the desired light, fluffy, honeycomb crumbly texture. The consistency is aerated like our badder but with slightly less terpene content.

DIAMONDS 3.5G (60-95% THC)

Terp Diamonds are created from fresh frozen plant material. THCA is isolated from the extract to create large crystals. A higher terpene fraction is then drizzled over the top of the crystals resulting in a more flavorful and potent concentrate.

EXCELLENCE IN PRODUCTION

BOUTIQUE CONCENTRATES

SHATTER 3.5G (70-90% THC)

Shatter is produced using hydrocarbons like Butane and Propane as solvents. Once the flower is run through the solvent, the solution is poured over a sheet and left to purge – for 96+ hours. This develops a great concentrate consistency.

SUGAR 3.5G (20-35% THC)

Our sugars have a balanced mix of both large and micro THCa crystals, coated with high terpene fraction.

SAUCE 3.5G (60-95% THC)

Sauce is an ultra-refined extract, containing the full range of biomolecules from the cannabis trichome without containing waxes, lipids and fats. We recover all the valuable terpenes and cannabinoids from the trichome.

EXCELLENCE IN PRODUCTION

DISTILLATE AND OILS

DISTILLATE 85%-95% THC

Distillate is considered the purest form of cannabinoids available, containing only cannabinoids in their final de-carbed state. Terpenes are distilled and reintroduced. We use strain specific terpenes in order to create some of the most effective and delicious vape oil available.

FECO (RSO) 85%-95% THC

Full-Extract cannabis oil is extracted by hydrocarbons. We use butane as it allows us to retain all of the beneficial compounds in cannabis, leaving behind the undesired. We decarb our FECO low and slow to ensure we retain the maximum terpene content.

DISPOSABLE VAPE OIL PENS AND CARTRIDGES

VAPE PENS (85%-95% THC)

Convenient and discrete. AMA pens are solventless and are infused with natural terpenes and flavour.

VAPE CARTRIDGES (20-35% THC)

There are no additives such as MCT oil in our vape oil products.

TRUSTED SAFETY

Focused on producing clean, high-quality products, we strive to achieve ultra-refined extracts with the lowest residual solvent content possible.

With new approaches to this craft, our vape oils, cured and live resins, oils, shatter and diamonds deliver exceptional, potent, and consistent experiences.

LOW RESIDUAL

STRICT QUALITY CONTROL

THIRD-PARTY TESTING

HIGH TESTING STANDARDS

WE ARE THE LAS VEGAS ORIGINAL.

AMA's cultivation roots run deep in Nevada. As one of the first licensed cultivators in Southern Nevada, we have years of experience under our belts. AMA's technologically sophisticated facility spans over 67,000 sq. ft. The one-of-a-kind, purpose-built facility was integrated with the latest technology to increase yields and bolster plant health to cultivate high-quality craft cannabis at scale with assured consistency and efficiency.

Growing indoors allows total control of the growing environment and is the most important part of cultivating high-quality craft cannabis at scale. We carefully ensure that our plants receive the correct dosage of nutrients in each stage to achieve an optimal plant growth.
